The Hallie Hill Howler

Alpha Impressions

By: Jennifer Middleton

Dear Friends,

April has been an interesting month dealing with necessary changes due to the pandemic. We have suffered a great loss by having to suspend our volunteer enrichment program, and we are anxious to restore it as soon as it is safe to do so. On the positive side, we have seen an increase in adoptions, so our residents are finding excellent forever homes!

The loneliness and isolation caused by 'Stay at Home' orders have resulted in a trend of increased adoptions and fosters throughout the US. Several shelters are low or completely out of adoptable pets. Now is a wonderful time to acclimate a new family member to a household when you are home all day. Many rescues, though, are concerned about what will happen when people return to work in coming months.

The adoption process at Hallie Hill is designed to have adopters be thoughtful about the decision to bring a new pet home. It is, after all, going to be a family member that will hopefully bring years of love, joy, and companionship. We often get inquiries asking, "how much?" for the dog or cat. We have many people wanting to stop by and adopt an animal that same day. This is where our adoption coordinator, Caroline Ruiz, must educate the potential adopter about our process.

Our adoption procedure starts with an online application that is short and simple. It asks some basic questions to give us an idea what the household is like and to help us decide what animal might be a good fit for the family. It also asks for the name and number of the applicant's veterinarian so Caroline can call and get a reference. We want to be sure that the adopter has provided well for past and current pets and is keeping them up to date on vaccinations and heart worm and flea prevention. Caroline then reaches out to the applicants to ask follow-up questions to determine which animals they are most interested in meeting. She then schedules an appointment for a 'meet and greet'.

Approved adopters visit the Sanctuary and spend time with the animals they are considering. If there is another dog already in the home, they bring it to the sanctuary as well to make introductions. This appointment allows us to answer questions about the animals and counsel the adopters about what challenges and joys may accompany the pet if it is chosen for adoption. In some cases, Caroline will send follow up information to provide help in specific instances such as how to introduce a cat to a dog, or how to work with a fearful dog.

After the pet is adopted, Caroline periodically reaches out to the adopter for updates. If there is a concern, we try to make suggestions or provide resources that can help. We love to see and hear how the adoptees are adjusting to their new life in their fur-ever home!

There is nothing more satisfying and heartwarming for us than to have the opportunity to complete a family by introducing them to a pet that they can love and that will love them unconditionally, right back!

Stay safe and see you soon!

Volunteer Spotlight

VOLUNTEER

The volunteers are **REALLY** missing their daily interactions with the dogs and cats at Hallie Hill, and the animals are **REALLY** missing them! All are doing well thanks to our stellar, committed staff, but there are always things that must be done outside of daily enrichment! Many volunteers have been stepping in to give a hand with transporting animals to and from vet appointments, collecting/making donations and delivering them to the sanctuary, doing media appearances, completing special carpentry and sewing projects, completing paperwork tasks, writing grants and much, much more! A special thank you to Susan Bedard, Barbara Harkins, Lynn Rosato, Katie Baldwin, Dave Rosato, Christine Bell and Michele Bayme, and anyone else we many have unintentionally missed! We are thankful for you and can't wait to see you all more regularly back at Hallie Hill!

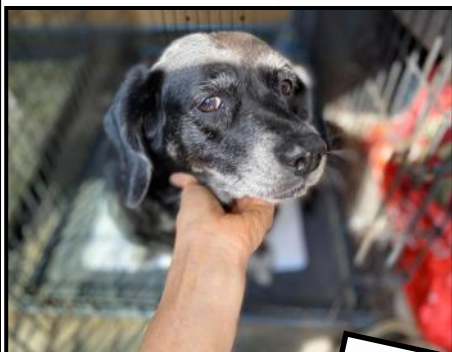

HHAS is taking precautions during this difficult time to protect the health, safety and welfare of our volunteers and staff. Therefore, the volunteer program has been suspended until further notice. Wishing that you all remain safe and well!

South Carolina Federal Credit Union Foundation Recognizes a Valuable Volunteer for 2019!

The South Carolina Federal Credit Union Foundation has made a donation to Hallie Hill in honor of Andrea Zicarelli. The foundation honors persons who have completed a significant number of hours of service to the community by making a donation to the charity of their choice. Andrea chose Hallie Hill Animal Sanctuary! Thank you for your service Andrea, and congratulations! We love you!

Lucy has an Angel!

Earlier this month, after losing her owner and only being with us a few weeks, Lucy ruptured a disc in her back and could not walk! Expensive surgery was required, and that very same day HHAS got a phone call from a lovely woman who had just moved to the area and wanted to do something special for us! When Jennifer explained the situation, she was all in as her dog had had the same surgery! Lucy is now recuperating beautifully and can walk again! Our benefactress wishes to remain anonymous, but we want her to know how much we appreciate her act of generosity and kindness.

BAD PORTRAITS OF YOUR PET

Bad Portraits of your Pet

We are not exactly world-class artists - but we will do anything for our animals! Submit photos of your pets along with a donation, and we will draw them! This has been a great way to inspire laughter during these uncertain times.

[Have us draw your pet](#)

Psst... don't have a Facebook? Email us!

**GO TO THE HALLIE HILL
ANIMAL SANCTURAY
FACEBOOK PAGE OR
WWW.HALLIEHILL.COM
TO LEARN MORE!**

Quarantine have you down? Working from home, and your only coworkers are now your whimpering dog and snoring cat? Let us make a piece of artwork for you... if you donate \$15 to the animals at Hallie Hill, we'll draw your pet. The catch? We're not exactly world-class artists - but we will do anything for our animals! 🐾

We have staff and helpers standing by, eager to turn your animal into a beautiful work of art (or at least make you laugh). You *might* get one of our artists, but... you will likely receive a drawing that is a little more... abstract. 😂

TO SUBMIT YOUR PHOTOS:

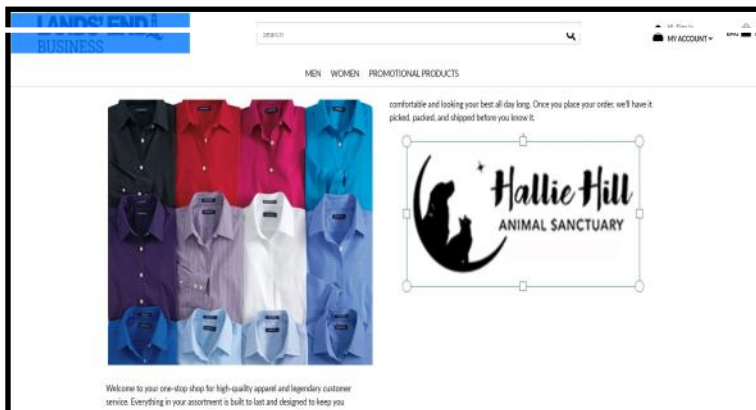

Simply click the Donate button on this post and submit \$15 per photo (maximum of two pets per photo). Once you've paid, comment below with the photo of your pet. Our team will then create your work of art and reply with a drawing of your pet as soon as we can.

There's no limit to how many drawings you can purchase; the more donations we receive, the more we can support animals in our community! Of course, if you feel compelled to give more than asked, we'd be so grateful for your generosity. ❤️ We love our supporters!

LANDS END AND HALLIE HILL!

You can now purchase anything from Lands End with the Hallie Hill logo!

Embroidery charge is \$6.95/item

(This is our storefront homepage)

MARK YOUR CALENDARS AND JOIN US!!

Who Knew?? Thanks Curly!!

Typically having several dogs at any given time, Curly was known to come home often with strays he found along his travels. He would foster the strays until he was able to find new homes. It is estimated that Curly saved and re-homed more than 5000 dogs in his lifetime - making him a man before his time with his humane concern for man's best friend.

THANK YOU!

To the animal care employees still
working daily to care for the animals
in their shelters and in the community.

10 Things you can do on a DOG WALK

Jazz-up your best friend's walks

1 Change Speed

Say your dog's name for attention before walking double your usual pace or walking at half speed.

2 Sit & Observe

Find a quiet bench and allow your dog to look around. Everytime he spots something unfamiliar, give him a treat. This helps to provide positive associations

3 Ten 'Straight Sits'

A 'Straight Sit' is your dog sitting by your side, with 'his nose pointing in the same direction as your toes'. Achieve ten per walk.

4 Play 'Red Light, Green Light'

This can teach a dog to walk nicely. When the lead goes tight RED LIGHT STOP. When the lead is slack, GREEN LIGHT GO and keep walking.

5 Let your Dog Decide

Give your dog a choice. Apply common sense and caution but allow your dog to dictate the route of your pavement walk.

6 Ten 'About-Turns'

An 'About-Turn' is you and your dog turning and walking back in the same direction you just walked. Say your dog's name, turn away from your dog and guide him. Achieve ten per walk.

7 'Search-Back'

Drop something like a glove or keys. Carry on walking a few steps. Stop and send your dog back to find it with the word 'Find' and a straight arm. You can begin by dropping a treat.

8 Play 'Wassiss?'

Help to train focus away from unwanted things. Randomly hold a treat and drop down. Drop the treat and excitedly point and say "Wassiss?". Allow your dog to locate and eat it.

9 Change Sides!

If you are used to walking your dog only on one side (the left, for example). Have a go at swapping sides and walking on the right. You may need some treats to help train this.

10 Eye contact starts the Walking

This encourages a 'check-in'. Occasionally stop and wait. The second your dog looks up at you, say 'good' and continue on. This can take a while initially but gets quicker.

Ambassadors of Conservation made a very gracious donation to Hallie Hill ! Representatives from SC, Texas, and Georgia spent a few hours touring our sanctuary. We thank them for supporting our mission and for furthering the conservation message in the USA and around the world!

10 Best Game Apps for Cats

Sofia Chervynska Petcibe.com

Cats have already taken over our hearts. But what if they take over our smartphones and tablets, too? We came up with 10 fun ideas on how to entertain your fluffy friends (and yourself as well!) using some games for cats on your gadgets.

Playing with cats has plenty of benefits for your pet's physical and mental health. First of all, it helps reduce their anxiety, especially when you're away for hours during the day. Also, cat games engage their natural curiosity and playful instinct. And don't forget to reward your cat for winning!

Tablets are better than phones for playing with cats. With the larger screen, your cat will be more engaged and responsive. It will be easier for the pet to move the paws across the device and catch mouse, fish, bug or dot. Be patient! It's okay if your cat is not engaged with the game app right away. You should try again later. Don't forget to show your pet how to play the game. She might engage with it as soon as get an idea of the game

1. Friskies Cat Fishing 2 — Free for iOS or Android

A classic fish app for cats. Challenge your pet to catch fish as many times as it can! This game has three levels with one, two and three fish at a time.

2. Friskies JitterBug — Free for iOS or Android

In case your cat got tired of fish, here come bugs! The idea is the same as in Cat Fishing 2. All your pet needs to do is to catch bugs during five 15-second rounds. You can share the score on your Facebook and compete with other cat owners!

3. Pet Cube App — Free for iOS or Android

The Petcube app lets you play with your cat while you're not there using the Petcube Play 2 pet camera with a built-in laser toy. The laser will move around the room while you're dragging your finger across the smartphone screen from anywhere you are. You can see how your pet is trying to catch the dot from your phone as well! If you don't have a Petcube camera, you still can use the app to play with other pets! Just search for the public and shared cameras in your feed.

4. *Paint For Cats* — \$1.99 For iOS

Who knows, maybe your cat is the future Pollock? Find out about your pet's hidden talent using the Paint For Cats app on your iPad! Choose one of ten color palettes and the masterpiece will be created while your cat is chasing the digital mouse. When it's done, you can email the painting to your friends (or Louvre) and share it on your Facebook page.

5. *Cat Alone - Cat Toy* — \$0.99 for iOS or Android

A beautifully designed cat app for your smartphone or tablet. There are 6 options to play around with — laser pointer, ladybug, finger, fly, butterfly, and cockroach. Each of them is accompanied by a typical sound.

6. *Pocket Pond 2* — Free for iOS or Android

This is not just another fish app for cats. First of all, it's insanely realistic and beautiful! Thousands of different exotic kinds of koi are swimming across your tablet or phone like in a real pond. With Pocket Pond 2 you can raise, breed, sell fish and decorate your own pond. And your cat will definitely be excited to play with it, too!

7. *Cat Toys I: Games for Cats* — \$0.99 for iOS or Android

This cat app will definitely catch your cat's attention with 6 fun games: Ladybug Smasher, Laser Pointer, Fly Smasher, Butterfly Smasher, Chase the Mouse, and CatFishing.

8. *Cat Playground* — \$1.99 for Android

Train your cat to catch a mouse, a fish or a laser pointer. The more it catches, the more points it earns.

9. *Mouse* — Free for Android

Your kitty will have some fun catching a mouse that runs across your tablet or smartphone screen and eats cheese. An easy and funny cat game app!

10. *Cat Clicker Training* — Free for iOS

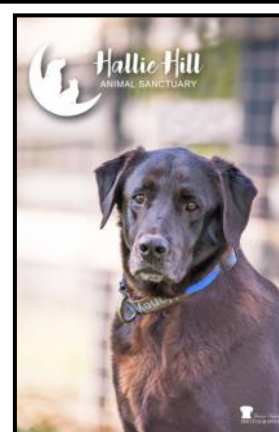

A perfect app for clicker training cats for your iPhone or iPad! When your pet touches the paw on the screen, your device produces the click sound. You can choose between different colors of paws and background.

May's Adorable Adoptables!

Tuffy

Tuffy was not very well named as she is sweet as can be! She is 13 years young with a beautiful brindle coat. Tuffy is a friendly, social girl who would love to finally have a home and special person to call her own! WE are not sure why this little lady has been overlooked—YOU can change that!

Chai

At 6 years old, Chai is a petite little lady who would love to fetch balls all day long—she loves tennis balls more than treats! She is energetic and loving with people but not so much with other dogs—she would need to be the only dog in the family. One meeting with this girl, and you will fall in love!

Gypsy

Gypsy is a sweet girl who came to the sanctuary malnourished and with very irritated skin. This brave 10 year old girl's skin has healed, and she now is at a healthy weight. Gypsy loves to prance on leash, and has the sweetest demeanor. And those ears! So long and soft...you cannot go wrong adding this girl to your family.

Ariel

Did Ariel's baby blues catch your eye? This active 8 year old girl may be deaf, but she does not let that slow her down! She LOVES the water and loves to play fetch. Ariel is nervous when first meeting new people and will bark. She should not be in a home with young children—she likes to have all of your attention!

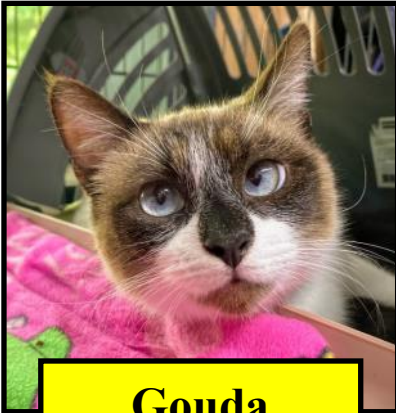

Go to halliehill.com and fill out an application to come out to HHAS to meet these wonderful animals. They will complete your family!

Mission Statement

Hallie Hill Animal Sanctuary is a 501c3 organization that provides a compassionate safe-haven with quality food and medical care for dogs and cats; a temporary home for those able to be adopted, and a forever home for those in need.
