

We can't change
their past,
But we can
rewrite their future.

July, 2020

The Hallie Hill Howler

Meet our Board of Directors!

Harvey Jay Loew
Vice-President

Harvey claims to be semi-retired as he is still being called upon from time to time for his counsel as a management and organizational consultant. He received a Bachelor of Arts in Psychology at San Jose State University and after a year traveling in Europe and singing for his supper, he returned to San Jose to earn a Master of Science in Cybernetic Systems, specializing in human behavior.

Before coming to the Charleston area, Harvey lived and worked in Chicago and in California. He and his wife, Sherri, are about to celebrate their 30th wedding anniversary in August! They both enjoy international and domestic travel. They were about to leave for an African safari when Covid-19 kicked in.

Harvey lives with his wife, Sherri, and their two 16-year-old cats, Dilly Bar and Mele Kaliki. He has many interests and hobbies and has recently transitioned from playing baseball and tennis to playing golf, swimming, and bike riding. Music has been, and will always be, a large part of Harvey's life.

Harvey's pets and how he found Hallie Hill, in his own words:

"My first pet while in graduate school was a stray. I named her Gateau, thinking it was French for cat. I later found out 'gateau' is French for cake! Before moving to Chicago, I had a golden retriever for five years. I was sad to leave her behind, but I found a wonderful family to care for her before moving to the Windy City on the 89th floor of the John Hancock Building!

When I first met Sherri, she had two cats and I quickly discovered I was extremely allergic. It was a tossup as to whether she would choose me or the cats - I think I won by a whisker! After 15 years of marriage, we came upon two rescue kittens and to our surprise and delight, I now was not allergic. Dilly Bar and Mele Kaliki were here to stay!

The Hallie Hill Howler

Dilly Bar

Mele Kaliki

Recovering from a knee replacement, I was fortunate to have Leigh Wechter as my home care physical therapist. After one of our walks in my Poplar Grove neighborhood, she asked if I would be willing to host a presentation to introduce Hallie Hill to our community. The event was a huge success, thanks to Jennifer's captivating presentation. I started visiting Hallie Hill, learning from Jennifer's experiences and insights. When Leigh invited me to a board meeting, I became further impressed meeting Helen Bradham and other board members. After becoming a board member in 2018, I initiated the first Hallie Hill golf tournament fundraiser, which was held at the Links at Stono Ferry, where I am a member. The fundraiser's success can be attributed to a dedicated golf committee, staff, and volunteers. The following year we increased our gross profit to Hallie Hill and expected to do the same in 2020, until Covid-19 came along. We hope it will be prudent for us to resume the event November 16, 2020. If not, look for the event in the spring of 2021!

Volunteer Spotlight

VOLUNTEER

The volunteers are back! Masks, gloves and social distancing are the new normal. Humans happy! Dogs and cats happy! Lots of love at Hallie Hill! We are all hoping that this virus craze is over soon. Stay safe everyone and wear a mask!! Thanks volunteers for all you do.

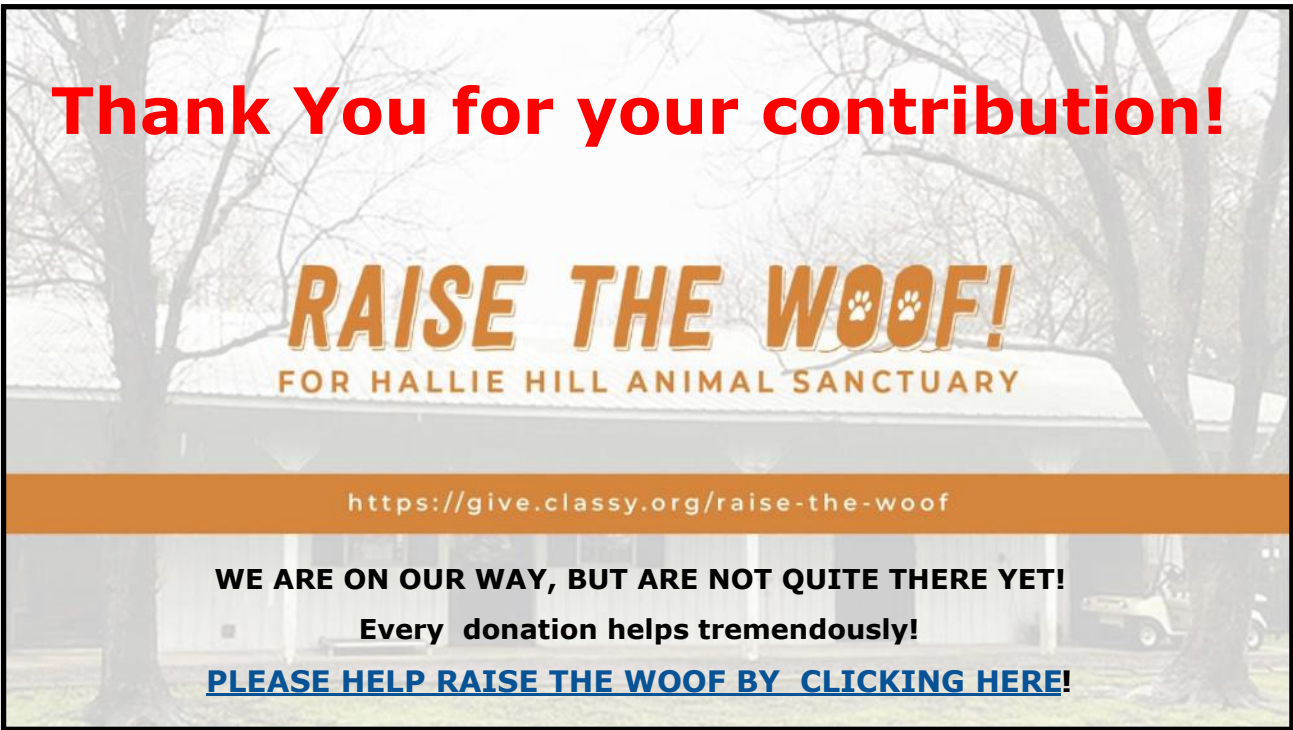

Welcome back, Michele, Volunteer Coordinator

Don't forget to check the
volunteer board in the
tack room in the barn!

Lots of great information
can be found there!

The British Car Club of Charleston's Annual Picnic at Hallie Hill!

[Click here
for photo
slideshow!](#)

BCCC Annual Picnic

By Mille Horton, BCCC Club Member

Having been “cheated” out of the first date scheduled for the picnic (by the weather), I think members were “hell bent” on the picnic happening on June 6. Lots of folks showed up at the Food Lion rendezvous point, happy to see one another amidst the pandemic that has thwarted many plans.

Soon Dave, in his MGA, was leading us to the Hallie Hill Animal Sanctuary just a few miles from our meeting spot. Irene and I did have a laugh of delight as Phil Odom (ahead of us on the stretch) let us hear what his Aston was capable of!

Setting up our chairs—6 feet apart under the trees in front of the cabin, we agreed it was great to be back with other members and at the Sanctuary where so much sacrificial work is done for the animals in need. Despite the lack of volunteers due to COVID-19, Jennifer Middleton and her small staff continue to see that animals get to the vet when needed, that special medicines are available for some needy animals and that all residents get fed, watered and loved!

In welcoming us to Hallie Hill, Jennifer addressed the group astutely making an extended analogy between our caring for our classic cars and the Sanctuary caring for the animals. It was quite obvious (and appreciated) that she had put much thought into the analogy.

Individuals had brought their own lunches this year (oh, did I miss the smorgasbord of prior years—sandwiches, fruit, salads, and DESSERTS!) but the Club supplied iced drinks—much enjoyed on the hot day (thank you, Lynn and Dave). Pat Kreuzer kindly distributed sets of individually wrapped homemade chocolate chip cookies!

After eating, those who desired went on a tour of the facility. Several newcomers to the Club or guests of members soon realized what a special place this is. We were introduced to the lovable ragtag group of pups that occupy the bunk house. It was amazing to watch blind Precious navigate his way around! Dogs in the barn enjoyed their cooling fans and our attention.

Some of the group also experienced the cat area, remarking how spacious it was. Keep in mind, Hallie Hill has about 150 dogs and 50 cats!

Club members stacked their contributions on the nearby golf cart, many also making monetary donations. One donation that garnered a lot of comment were the big rolls of the time’s most valued commodity—toilet paper for the staff! If you are reading this and were not able to make the picnic and wish to make a contribution, please send your check to Hallie Hill Animal Sanctuary, 5604 New Rd., Hollywood, SC 29449.

With rain coming, we rushed to get our LBCs home—surely, they might melt if they got wet! Irene’s TR4A proved to be a worthy “steed,” safely delivering us back to East Cooper.

Our own Lynn and Dave Rosato deserve an extra shout out for their efforts on picnic day and all year long at Hallie. Dave fixes ANYTHING that needs it, and Lynn volunteers her time at the Sanctuary and on TV spots to promote the facility and advertise some adoptable “fur people.”

Heat is a 4 Letter Word!

A reminder as the heat increases...

It's Hot Out!

Don't Leave Your Pet in the Car!

A car can overheat **even** when the window has been left cracked an inch or two.

Young, overweight or elderly animals, or those with short muzzles or thick or dark-colored coats are most at risk for overheating.

Shady spots offer little protection on hot days, and move with the sun.

90° **102°** **120°**

Even if the temperature outside is only 70°, the inside of your car may be as much as 20 degrees hotter!
 On an 85° day, it only takes ten minutes for the inside of your car to reach 102°.
 Within just 30 minutes, the car's interior can climb from 85° to a scorching 120°.

Many states and local governments have laws that prohibit leaving an animal unattended in a motor vehicle under dangerous conditions, which includes hot days. Your car could be damaged or you could be charged with a crime.

ASPCA

If you see an animal trapped in a car on a hot day, try to locate the owner or call 911! **Stay by the car until assistance arrives.**

6 SIGNS OF HEAT STROKE IN DOGS

- RAPID PANTING
- WEAKNESS
- BRIGHT RED TONGUE

- DIARRHEA
- VOMITING
- THICK/STICKY SALIVA

WHAT TO DO:

1.  Move dog into a cool area
2.  Apply cool water all over body
3.  Apply cool towels to head, neck and chest
4.  Give small drinks of cool water
5.  Take your dog to the vet ASAP

If the air is **HOT**, the asphalt is **HOTTER!**

Press the back of your hand firmly against the asphalt for 7 seconds to verify that it will be comfortable for your dog.

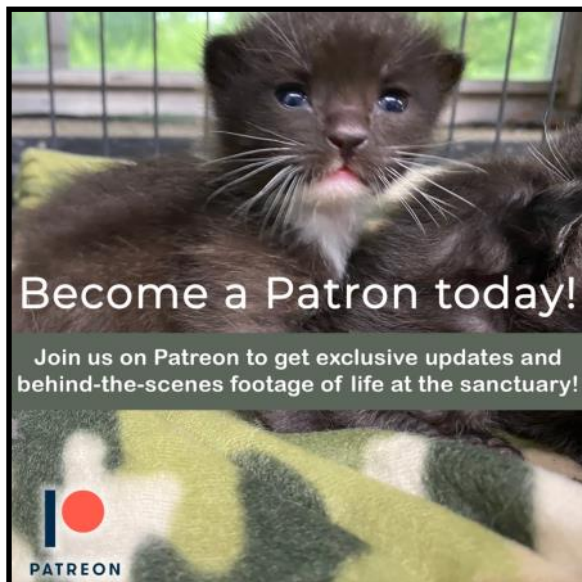

When the air is this, the temperature has been measured at this! *

AIR Temperature	ASPHALT Temperature
77°	125°
86°	135°
87°	143°

AN EGG CAN FRY IN 5 MINUTES AT 131° F
AT 125° skin destruction can occur in 60 seconds!

* These temperature correlations represent worst case scenario variables. Data Source: Berens J. Thermal contact burns from streets and highways Journal of the American Medical Association; 214 (11): 2025-2027"

Canine Cabin/Cat Condo Sponsorship

Benefitting Hallie Hill Animal Sanctuary

All of our animal friends deserve a warm, comfortable place to "rest their paws."

Hallie Hill's Canine Cabin or Cat Condo sponsorship program provides a great opportunity for individuals, families, private organizations, and businesses to directly support the animals we care for daily.

As a sponsor, your name will be proudly displayed on the front of the cabin and included prominently on our website and in our newsletter.

[CLICK HERE TO LEARN MORE](#)

Not shopping for gifts right now? You don't have to—give the gift of safe, warm and dry for your furry friends at Hallie Hill!

Sponsor a canine cabin or cat condo in the name of that special person...it will definitely fit perfectly!

Happiness starts with a wet nose and ends with a tail.

They're all good dogs. Give them a chance.

Thank You!

The Truth About Catnip!

<https://healthypets.mercola.com/sites/healthypets/archive/2012/01/12/catnip-fun-facts.aspx>

Catnip, catmint, catwort, field balm -- it doesn't matter what you call it. Lions, tigers, panthers, and your common domestic tabby just can't seem to get enough of this fragrant herb.

Originally from Europe and Asia, minty, lemony, potent catnip -- *Nepeta cataria* -- has long been associated with cats. Even its Latin-derived *cataria* means "of a cat." And research shows that cats big and small adore this weedy, invasive member of the mint family. But why do they like catnip so much? Is it safe? And what does it mean if your cat doesn't like it?

Catnip's Effects

It's genetics that determines whether your feline friend falls for this cousin to basil and oregano. About one cat in two inherits a sensitivity to the herb. But you won't know if your kitten is one of them until sometime between ages 3 and 6 months.

Catnip's allure is in its volatile oil, specifically one chemical in that oil -- nepetalactone. Found in catnip's leaves, stems, and seeds, it only takes one or two sniffs of that wondrous oil before susceptible felines are licking, chewing, and rolling head-over-tail in kitty bliss.

Though intense, that bliss is usually short-lived, lasting about 10 minutes for most cats. For some, the euphoria translates into aggressive playfulness. At the same time, it makes others mellow and calm. But no matter what reaction your cat has, once the pleasure passes it'll be about two hours before kitty responds to catnip again.

Catnip: Toys and Training

Because cats *do* respond to catnip again and again, the herb can be a powerful training aid.

Want to keep kitty from clawing furniture? Rub a scratching post with catnip to make it more appealing. Bought a new cat bed? Sprinkle a little of the herb on kitty's cushion to make it more attractive to your feline friend.

You can also provide enrichment for an indoor kitty by creating catnip toys. Sprinkle a bit of the herb into an old sock, then knot the top. Or put a big pinch of catnip in a small paper bag and crush the bag into a tight ball.

The intensity of kitty's response to toys and training will be affected by the type of catnip you use. While most cats enjoy the herb dried or fresh, they're usually less interested in catnip sprays, which generally don't contain enough nepetalactone to appeal to most felines.

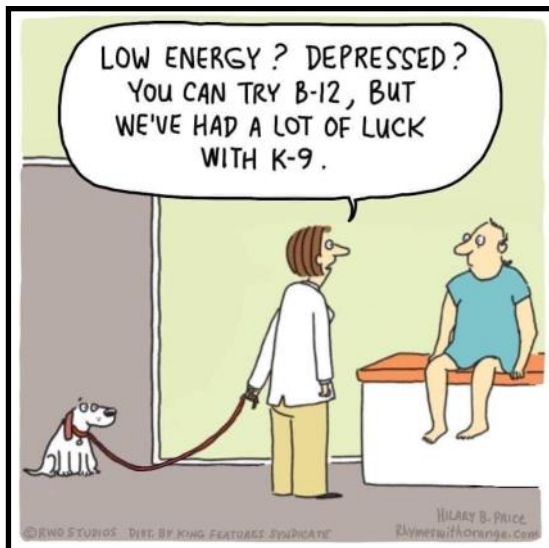

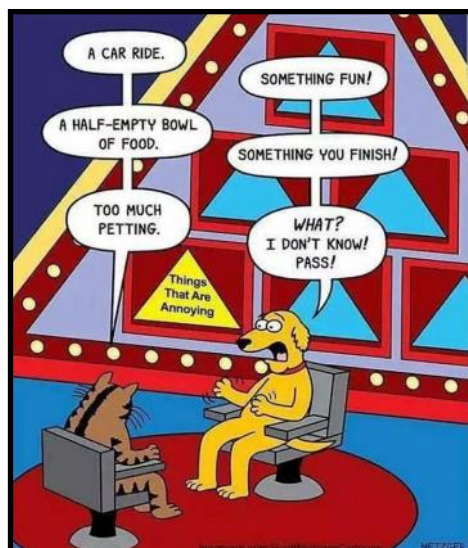

Fortunately for kitty, catnip -- which is non-addictive and safe to eat -- is easy to grow in a sunny window. You can even go so far as to create your own kitty garden with one pot of catnip and one of wheat, oat, rye, or barley grass. Not only will kitty enjoy both, but having its own house plants may keep kitty out of yours. If you plant catnip directly in the garden, remember that, like most mints, it's a vigorous, sometimes invasive, grower.

Catnip's potency doesn't last forever; the essential oils quickly dissipate. So if you buy dried catnip for your feline friend, store what you don't use in the freezer.

July, 2020

Laughter is STILL the Best Medicine!

July's Adorable Adoptables!

Kevlar

Kevlar (2 years old) is a handsome, blue-eyed, sweet pup. He had suffered severe wounds from being shot with birdshot. We have taken this sweet boy in and hope to find him a great home. Kevlar needs to live with another dog, and without small children. He prefers female over male humans and will still need lots of patience and kindness as new situations can be scary for him. Kevlar is currently being treated for heartworm. He is sure to win you over!

Parmesan

Parmesan is a young kitten, about 3 months old, who is as cute as can be! An approved adopter for Parmesan would begin as a foster and will need to bring her back to the sanctuary for vaccinations intermittently. She will be able to receive her rabies vaccination and spay at the end of July. Parmesan will need to be brought back to the sanctuary before that appointment and can be officially adopted once she receives her rabies vaccination and is spayed! That will be a special day for some very lucky family!

Layla

Layla (9 years old) is a friendly girl with an outgoing personality. She loves every person she meets! She does not mind riding in the car, and thinks other dogs are just fine, too! This happy, easy-going gal hopes to find a family to call her own, what a wonderful addition she would be!

Johnny Cake

Johnny Cake (10 years old) is a handsome boy who will take a little extra time to warm up. He hopes to find someone who will give him a loving home and be patient as he acclimates to new surroundings. Johnny would like to be the only dog in the home so he will not have to share your love and affection! You will not regret reaching out to give this sweet boy a fur-ever home.

Go to halliehill.com and fill out an application to come out to HHAS to meet these wonderful animals. They will complete your family!
