The Hallie Hill Howler

I am always happy to explain to willing listeners as they tour the sanctuary how Hallie Hill is different from a 'shelter.' The main difference is that as a sanctuary, we can provide long term care if necessary. Most shelters have somewhat small enclosures for individual dogs, often housing them separately for safety. Dogs kept for extended periods of time in a shelter setting often deteriorate behaviorally due to the stress of living in an unnatural environment. We are so fortunate at Hallie Hill to have the spacious enclosures for the dogs and cats, so they have the freedom to express normal behaviors such as digging, sniffing, exploring and more. But just like shelter workers, we also strive to provide different enrichment experiences to engage the animals' brains to maintain a positive emotional/mental state.

Thanks to our volunteers, we have great opportunities for dogs to walk around the sanctuary on 'Sniffaris' (much like a safari, but dogs are experiencing the world with their noses in the same way as we would with our binoculars.)

Thanks to amazing donors who provided CD players, more animals are appreciating music daily. We love the CD 'Through a Dogs Ear' (find it [here](#)).

Food retrieval is a great enrichment technique. Dogs have Kongs or chewy treats, but the cats have these simple treat dispensers that make them work for a reward.

We have a scent wagon with lavender, rosemary, mint, basil, catnip and more. The wagon is parked in a different location each day for animals to enjoy.

Volunteer Spotlight

This month we want to say a special “Thank You” to Lynn Rosato! Lynn has been volunteering with Hallie Hill since 2016. Many people see her onscreen highlighting our sanctuary residents and promoting our events on multiple TV networks, but many are not aware of all she does behind the scenes. Lynn singlehandedly puts together our monthly newsletter, The Howler. She donates countless hours to make the newsletter a special compilation that highlights everything that is going on around Hallie Hill. Lynn is always involved with planning and implementation of all the fundraisers for the sanctuary. From AAA to Putting for Paws, she works tirelessly to

make each event a success to benefit the animals of HH. She assists with events both in the community and onsite events such as vaccination events. Lynn always has her phone out taking great pictures to share with everyone. On behalf of the Hallie Hill Board of Directors, I recently had the pleasure of presenting Lynn with an engraved silver tray for her years of dedicated service to the animals of the sanctuary. We are lucky to have volunteers like Lynn who make Hallie Hill the special place it is for the animals we serve! Thank you, Lynn.

We are looking for volunteers to help out at the Putting for Paws Event on 6/26! If you are able to give us some time that day, please contact Jennifer ASAP!

*Taking the 'PET'
out of Petrified,
One Shelter at a Time.*

We are pleased to announce HHAS has adopted the methods and philosophies of the *Fear Free Shelter Program*. Michele Griffin, CPDT-KA, the HHAS Assistant Director has not only a passion for pets, but one for educating people about understanding companion animals and the best methods for working with them. Michele has led our current continuing education campaign wherein the sanctuary staff is completing a course to learn the best practices for working with animals in a way that improves their emotional experiences and reduces their fear, anxiety and frustration. Volunteers are also welcome to complete this course to better understand some key strategies and techniques that will make a positive impact on the emotional state of the animals in our care. Every month, for the next several months, will highlight what one of our staff members found most interesting or valuable about the program.

'The thing I love most about our staff and volunteers embracing and using the Fear Free Shelter philosophy and techniques, is having everyone on the same page with the way they handle and interact with our animals - care and consistency is so important. So much research has been done in recent years, proving that like us, dogs and cats are sentient beings with feelings and emotions. Small, easy changes in the way we do things with them, makes such a huge impact on their comfort and wellbeing.'

HALLIE HILL AT THE CHILDREN'S MUSEUM 5.20.23

THANK YOU FRIENDS of HALLIE HILL!

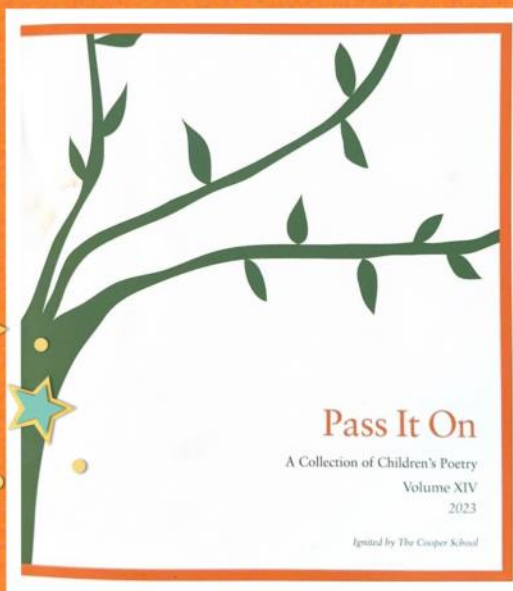

Preferred Home Services donated over 1,000 pounds of dog food! WOW! Thank you so much, Mike and Ryan, for this very special fundraiser and making this special deliver to the Sanctuary! We can't thank you enough for your kindness—thanks for caring about our special animals!

We are pretty excited about a wonderful donation of a chest freezer! Now our pups can have refreshing frozen treats in our hot, HOT, SC summer! THANK YOU!

Thank you East Cooper Center for Advanced Studies High School Program! They collected donations of dog food, towels, treats (and so much more) that we know will get our pups and kitties excited!!

TRIBUTE

This year, students chose to work with a local charity that focuses on helping animals in need. The proceeds from the sale of *Pass It On* will be donated to Hallie Hill Animal Sanctuary located in Hollywood, SC. Hallie Hill's mission is to provide a compassionate haven with quality food and medical care for dogs and cats. Once they take in an animal, they promise it a home for the rest of their lives. While they know that they cannot change an animal's past, they can rewrite their future.

Hallie Hill cares for animals from across the Lowcountry, working with local shelters and veterinarians to provide necessary medical care. With 30 acres of land, Hallie Hill can shelter about 200 cats and dogs, fostering them in a safe and loving environment until they find a "forever home". Many of the animals they take in have suffered abuse, neglect, or abandonment. Hallie Hill works with the animals to prepare them for adoption by helping with rehabilitation and socialization. If an animal is unable to be adopted, Hallie Hill provides them with a loving home on their property.

Throughout this collection you will read poems written in tribute to Hallie Hill Animal Sanctuary.

Hope... *Pass It On*.

A WORD ABOUT WAGS

A WAGGING TAIL **DOES NOT** ALWAYS = A HAPPY DOG

DIFFERENT TYPES OF WAGS & TAIL POSITIONS PROVIDE INFORMATION ABOUT EMOTIONS & INTENTION

The language of a wag and tail position can be complex - it should always be looked at in context with the rest of the body language

Tail positions and what they mean are breed specific - some breeds naturally hold and wag their tails differently

Some wags / tail positions may signal -

- anxiety
- fear
- avoidance
- predation
- uncertainty
- general arousal
- reactivity
- tension
- frustration

Up, down, high, low, left, right, fast, slow, stiff, flowing, vibrating, relaxed, - is all important communication

Tail docking destroys a vital part of a dog's ability to communicate & may create a social disadvantage or misunderstanding with other dogs

Dogs Disclosed

BRIBE OR REWARD ?

BRIBE	REWARD
OFFERED BEFORE A BEHAVIOUR	OFFERED AFTER A BEHAVIOUR

IT'S ALL ABOUT TIMING

Rewards are a proven, effective way to build communication & maintain a wanted behaviour

Showing a dog a treat every time you want them to do something will result in a dog that only responds when they see a treat	Asking for a behaviour first & then rewarding results in a dog that will respond without first being shown a treat
A reward is anything that a dog finds motivating - treats / praise / toys / games	A reward is not a bribe when used at the right time <i>Dogs Disclosed</i>

TO MY RESCUE DOG

There's no need to flinch when I lift my hand
No need to cower each time I stand
No need to run when I come near
No need to tremble - I see your fear.

You can sleep with both eyes shut,
Don't need to jump when you wake up.
Your food is yours to eat in peace
No need to fight to keep your feast

You don't need to lie upon a hard floor
The beds and sofas are yours to explore
Don't need to sit out in the rain
The house is your shelter, your new domain.

I cannot erase the memories and fears
I can't compensate for the wasted years
All I have is what you see
But I give you it all and I give you me.

I give you these arms to comfort and hold
I give you this voice for the joys you'll be told
I give you my heart and abundance of love
I give you my soul and I hope its enough.

'ADOPTION PUP-DATES'

SALTY (formerly TRON)

"90 Days With Salty

In early October of last year, almost 90 heartbreaking days after I lost Riley, my furry companion of 15 1/2 years; at the suggestion of Jeanne Taylor, the Lowcountry's pet photographer extraordinaire; I reached out to Hallie Hill to make arrangements to visit the sanctuary and meet a few dogs that I saw on their website. Salty (previously Tron) was not on my short list, but on that Saturday in early fall, immediately became the focus of my attention, and every week thereafter until I brought him home February 19th.

Salty is easy to love (Cole Porter song). He has a voracious appetite and most recently does a little dance for his breakfast and dinner. Salty loves ice cubes in his water, and Brazilian jazz in the background during his naps, he takes a lot of naps. He is the star of every Zoom meeting; only speaks when spoken to; if only he could do travel revenue projections...He loves his backyard and great at reminding me when it is time to take a break and join him for some fresh air.

We are still working on shedding some pounds, but who isn't? Salty moves through life at a very deliberate pace, likely still getting used to his ongoing thinner self. His tail is always wagging, and paired with his big smile, he is truly irresistible; so he is getting plenty of belly rubs and kisses on his forehead.

Salty is always up for a ride in the car, whether to go for a spa day, to see his new girlfriend (vet) Dr. Bostian for a checkup and cuddle, or just to let the wind run through his very shiny and soft black coat. As an added bonus a great opportunity for me to work on my upper body strength getting the ramp set up and him settled across the back seat once he makes the climb.

In short, it has been an amazing 90 days, and I am grateful every day to the Hallie Hill team for taking him in almost two years ago and even more grateful for affording me the opportunity to make sure that Salty lives his best life, and with Salty by my side, I live mine."

"Jaks (formerly Jim) is a happy dog. He made a great transition from being fearful of everything to being playful and loving. He loves riding in the car and running on the trails and the beach.

'ADOPTION PUP DATES'

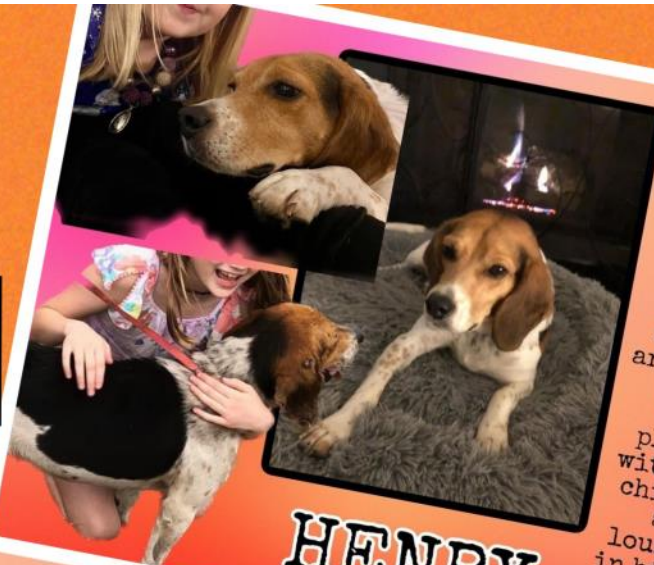

PRISCILLA

It's taken me almost 4 months to write this email because I couldn't put it into writing yet. I wanted to share with you that my (our) sweet Priscilla, who came home with me from Hallie Hill in 2018 at age 11, passed away the first week of January. She was over 15 years old and between her arthritis and issues with a collapsed trachea, she let me know that she was tired, and that she was ready.

I never expected to get 4+ years with her - adopting a senior of course comes with the awareness that your time is limited. But the bond that we formed in those 4 years was remarkable - I would do it over and over again. She totally made me a better human, just by being such an amazing best friend and companion.

I cannot thank you enough for being Priscilla's home for 11+ years til I got there. The ripple effect of what you guys do goes so much further and deeper in people's hearts than you know.

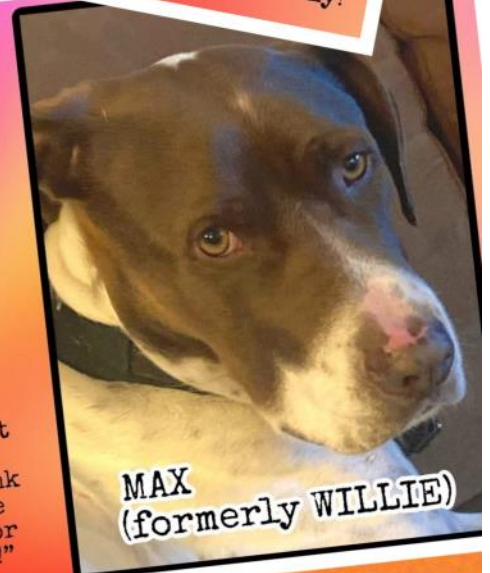

My eternal gratitude to yall for my sweet love, Priscilla.

HENRY

Remember the Beagle mix Henry? His Dad says that he loves long walks, zooming around the large yard, playing with his 3 children and lounging in his bed. He loves his family!

"It's been a long time, but I just want you to know how much we love this guy. You called him Willy... he's our Max. I've had countless dogs in my life...all special, loved. But sweet Max is the most loving dog I've ever had. Goofy, yes, but all-giving, just sweet. I have no idea why he didn't get adopted sooner, but I thank God he was there for us. Thanks for the work you do!"

MAX (formerly WILLIE)

REESE

Reese is doing great so far! Everything is great! She's so happy and being such a good girl. We crated her the 1st night and while we were gone for a little while yesterday, but decided to leave her out last night. She slept on the dog bed for a while and was on a chair when I got up this morning. She's fun, sweet and doesn't seem too mischievous 😊 And while she loves Konrad, I am definitely her person. I'm grateful for that and for her and Ruger getting along. They've done many zoomies around the yard together and both had fun running around while Konrad mowed last night. Thank you for trusting us with her. We love her so much!"

Lady

This beautiful girl of 13 is embracing her years! She is active and curious despite some arthritis that does not hold her back! She is happiest next to her person and would make a wonderful companion for some lucky hu-mom or dad. We would love to see her in a loving home that she deserves!

Mocha

At just 5 years old, Mocha would love to be spoiled as someone's one and only! She lived with other dogs when she first came to the sanctuary but has decided she prefers her own space. She loves a good "sniffari", a walk that's all about her, taking in all the fantastic smells her little nose desires! We'd love for Mocha to know what it's like to be cherished by her very own special someone.

Mika

Mika is such a cute little almost 2 year old girl resembling a little desert fox! She is a little timid at first but such a sweet love once she's comfortable. She wags with her whole body, not just her tail! She has been treated for heartworms and she now needs a home and parents who are looking for a cuddle bug!

Krispin

Krispin, what a cutie, right? Like a lot of our cats, he is shy at first. Once he warms up he will "flirt" with you and want attention. He plays hard to get but is worth the wait! At almost three years old, he is a perfect age, not a crazy kitten but ready to settle into his very own home with loving pet parents! Please give this beautiful tabby a chance!

Medical And Geriatric Intensive Care

The MAGIC Fund is used to cover the many medical costs that arise at the sanctuary. New arrivals require vaccinations and spay/neuter surgeries. All of the 200 animals receive monthly heart worm and flea preventative.

Many animals develop orthopedic or other health problems that require surgery. Hallie Hill also has many animals that require daily medications for everything from diabetes to arthritis. Many of the senior residents need more medical interventions as they age. Your donation to this fund helps to ensure the animals get the medical attention they need to live healthy, pain-free lives.
